Re: IB Docket No. 11-109

Dear Ms. Dortch:

I write to express my support for LightSquared's efforts to responsibly build a wireless network that will increase competition, lower prices, and serve often underserved communities.

Given the national, political environment, I see it is not always easy to parse through the substance of issues regarding America's future without political maneuvering. I applaud you for taking the politics out of the regulatory process.

Let science prevail.

Very truly yours,
